

Retractions to: “Histoarchitectural studies of the visual cortex following chronic administration of kolaviron and nevirapine in Sprague-Dawley rats” and “Concomitant symptomatic thoracolumbar and lower lumbar disc herniations: Strategies for treatment and outcomes”

The articles by Lia-Qing Sun et al., entitled “Concomitant symptomatic thoracolumbar and lower lumbar disc herniations: Strategies for treatment and outcomes” and Sunday A. Ajayi et al., entitled “Histoarchitectural studies of the visual cortex following chronic administration of kolaviron and nevirapine in Sprague-Dawley rats” were both accepted on November 12, 2016. The abstracts of the articles were published on the webpage of our journal with DOI numbers 10.24165/jns.5412.13 and 10.24165/jns.7864.14, respectively.

Due to the lack of communication during the production process from the authors’ side, the articles in question have been retracted upon editorial decision.
